

Dear Members,

We hope everyone is as safe, healthy, and comfortable as can be during these trying times. As everything has been changing rapidly over the last week, it's been a constant effort to chart a course for MYC and our members. We have been working diligently to continue providing as many services to our members as we are allowed. Thank you to everyone who has supported MYC through our curbside takeout opportunities. It helps us all keep moving, and more importantly, it helps us all stay engaged and connected with our beloved club.

While navigating our current reality, the Board of Directors, officers, and staff have also been hard at work preparing our club for an amazing 2020 season when we're permitted to resume business as usual. The marina is being prepared by Dock Master Matt and his team and will be ready as boats begin to populate the slips. As you may have seen, marinas are still open under the Governor's orders. We are also preparing the pool in anticipation of our regular season. As for the club house, we know that eventually this will pass, our lives will rebound, and we're eager to have the club house ready to come back to life for the MYC members.

We have been blessed to have staff and volunteers who are committed to keeping our club moving forward during these trying times. Now more than ever your support is needed and appreciated. We are all in this together.

Sincerely,

Board of Directors
Milford Yacht Club
